

## **EMS Seed Grant Guidelines**

- Seed grants received from EMS or other Penn State units to include IEE, Huck, and MRI, must be spent within two (2) years of receipt if a spend-out term was not specified in the grant.
- Any unspent funds remaining at either the end of year two (2) or the end of the specified grant spend-out term will be returned to the college for an internal seed grant distribution/application process if the funding unit does not require unspent funds to be returned
- Existing seed grants (awarded in FY2018-2019 and prior) will be granted a one-time, one-year extension

*These EMS seed grant guidelines were discussed and adopted at the October 15, 2019 Executive Council meeting and are effective starting in FY2019-2020.*
